## RECYCLE 2018

2<sup>nd</sup> International Conference on  
Waste Management

22 - 24 February, 2018

Organised By:

Waste Management Research Group (WMRG)  
Indian Institute of Technology Guwahati  
Guwahati-781039, Assam, India

# ABOUT IIT GUWAHATI

Indian Institute of Technology Guwahati (IITG) is one of the leading institutes of technology and excellence in India, established in 1994. At present the institute has eleven departments and four interdisciplinary academic centres. IITG has world class infrastructure for carrying out advanced research and has been equipped with state-of-the-art scientific and engineering instruments. With a sprawling campus of 285 hectares of land on the north bank of river Brahmaputra, around 20 kms from the heart of Guwahati city. Guwahati is connected with many major cities of India by road and air. Institute buses are available from Guwahati city (railway station) to IITG campus, available from airport to IITG campus.

## RECYCLE

Recycle started off as a symposium in 2012; as an initiative of Waste Management Research Group (WMRG), IIT Guwahati. In 2016 it gradually rose to the level of an international conference. Recycle 2016 was a grand success which was quite evident by the huge number of participants. After the immense success of the 1<sup>st</sup> international conference, **Recycle 2018** is here again to draw the attention of national and international researchers, scientists and academicians to discuss and learn about latest innovative ideas and technology for waste management. It emphasizes on the core issues of waste management through safe and efficient practices. It aims to awaken the awareness of researchers, scientists, professionals and citizens about the safe practices and latest technology for managing and treating solid and liquid wastes. Recycle 2018 will provide an excellent platform for exchanging and discussing the ideas, practices and techniques for management of wastes.
