

Clean Energy and Affordable Healthcare Materials and Devices

VTM and RNA extraction kits approved by ICMR
Validated by GMCH

COVID-19 kits launched by Dr. Himanta Biswa Sarma, Hon'ble Minister of Health and Family Welfare, Govt. of Assam

Atmanirbhar Bharat Abhiyaan
COVID-19 kits manufactured in Assam State

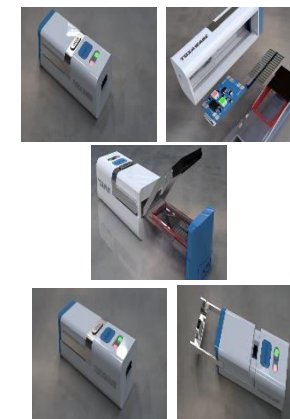

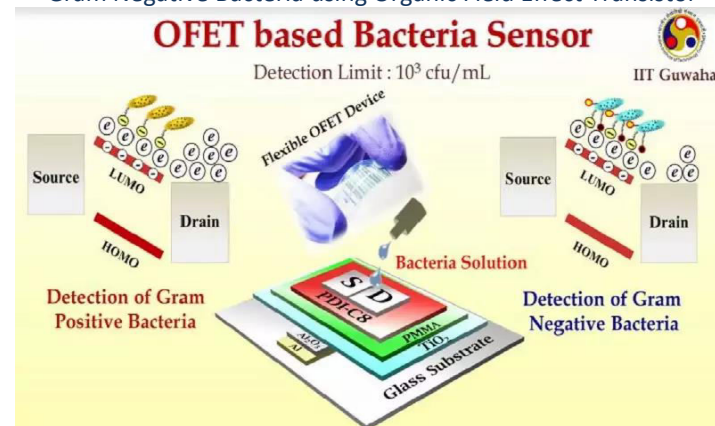

- Crossed TRL-09
- Demonstrated MRL-09

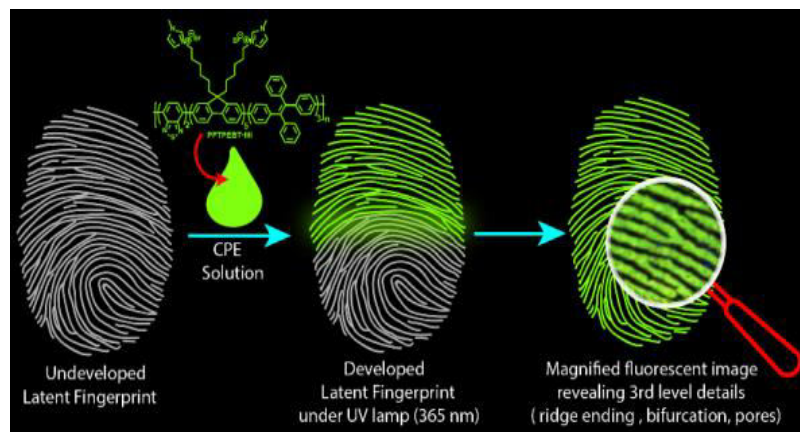

Ultradetection of Hydrazine and VOCs

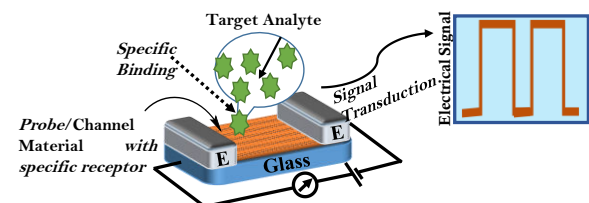

Rapid Detection and Discrimination of Gram Positive and Gram Negative Bacteria using Organic Field Effect Transistor

AIE Conjugated Polyelectrolyte for Latent Finger Print Detection

VOC Device Sensor

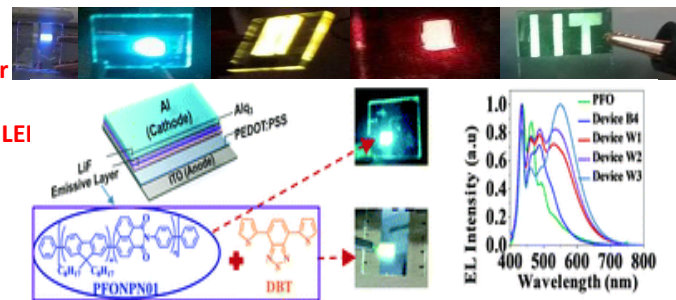

- Highly Selective to analytes
- Low concentration detection
- Gas or Liquid detection
- Portable device
- Both reusable as well as disposable

Nerve gas agent Device

- Very Low-cost,
- Portable sensor
- Rapidly detects DCP vapor
- Multiple output signals
- Bright visual signals from LEI
- Loud alarm buzzer
- Remote Access

AIE Based LED multicolour emitting device

Multilayer perovskite photovoltaic
